

REMARKS

Enter the foregoing amendments and favorable reconsideration of the subject application in the light thereof, and in the light of the following remarks, are respectfully requested.

By the present amendment, original claims 1-15 have been canceled, and newly added claims 16-19 have been added. In effect, newly added claim 16 is original claim 4 rewritten in independent form. Claims 17-19 are dependent therefrom.

Turning to the outstanding Official Action. In the Official Action, claim 4 was objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form. The prior art of record does not show a process for making a paper web having a glossy surface wherein four calender rolls are used in a nested configuration such as that recited in claim 16 (and original claim 4).

In the light of the cancellation of the original claims, and only adding claims based upon original claim 4, it is submitted that the rejections of record have all been rendered moot. As well, since the remaining claims of record are all based upon original claim 4, and the Examiner has indicated original claim 4 to contain allowable subject matter, it is submitted that the present application should now be in condition for allowance.

Favorable reconsideration of the subject application is therefore respectfully submitted.

From the foregoing, further and favorable action in the form of a Notice of Allowance is believed to be next in order, and such action is earnestly solicited.

Respectfully submitted,

BURNS, DOANE, SWECKER & MATHIS, L.L.P.
